## MAY NOT JOIN IN ALLIES REQUEST

United States Probably Will Not be Party to Plans to Ask Wilhelm's Surrender

### HUNS MUST PAY WAR COSTS

Premier Lloyd-George Declares Principles Have Always Been That The Loser Pays

Washington, Nov. 29.—The United States probably will not join with the entente in its reported plan to ask Holland to surrender the former kaiser, according to indications at the state department.

London, Nov. 29.—"Germany must pay the costs of the war to the limit of her capacity," Premier Lloyd-George declared, in a speech here today.

"The principles have always been that the loser pays. We must proceed on this principle in regard to Germany."

"Peace must be just. Germany will not be permitted to pay the indemnity by dumping cheap goods in this country."

Referring to his stand in the coming election, the premier said:

"I won't lead the government if I am to be subjected to the old party conspiracies and intrigues."

### To Discuss Procedure

London, Nov. 29.—Premier Clemenceau and Premier Lloyd-George will meet here Sunday to discuss the procedure for demanding that Holland turn the former kaiser over to the allies, the Express declared today.

It was stated Marshal Foch and Colonel House may attend the conference.

### To Induce Kaiser to Leave

Amsterdam, Nov. 29.—The former kaiser soon will leave Amerongen castle to undergo treatment for his shattered nerves, in a sanitarium near Arnhem, it was understood here today.

He is reported to be subject to frequent fits of violent weeping.

In well informed circles at The Hague, it is expected that the allies soon will join in inducing Holland to expel Wilhelm, offering him the choice of returning to the German frontier or surrendering to the entente.

### Two Issues Related

Paris, Nov. 29.—Realization that the question of freedom of the seas and a league of nations are inseparably related is becoming more evident, as the international representatives gather in Paris and the actual peace conference draws near.

### Hoist Prussian Flag

Washington, Nov. 29.—Returning German soldiers overthrew the council of workmen and soldiers after a hot fight at Lennep, according to diplomatic advices through Swiss channels today.

The troops proclaimed dissolution of the council. They brought down the red flag and burned it while the population applauded. The Prussian flag was hoisted.

### Kaiserize in Holland

London, Nov. 29.—A Rotterdam correspondent says the former kaiserine garbed in a dark overcoat, arrived at Maasbergen yesterday morning accompanied by the wife of the German minister to The Hague. They motored to Amerongen castle, said the correspondent, where they joined the former kaiser. The kaiserine's luggage is said to have consisted of twenty large trunks.

### Conference is Called

The Hague, Nov. 29.—Soldiers councils on all fronts have been notified to send delegates to a special conference.

## TO NAME SUCCESSOR SOON

President Expected to Pick Secretary of Treasury Next Week.

(By United Press.)

Washington, Nov. 29.—Interest in the appointment of a new secretary of treasury took another turn today when it became known that Representative Carter Glass, Virginia, recently had been offered a place as a member of the federal reserve board. He was understood to have definitely declined the offer.

Indications today were that the president would nominate McAdoo's successor upon the convening of congress next week.

## SAME SENTENCE IS IMPOSED ON GIRLS

Mrs. Violet Hess and Miss Gladys Clevenger Must Serve Thirty Days in County Jail

### JOHN WOLTERS PLEADS GUILTY

The same punishment that was imposed on the two boys with whom they were accused of having improper relations, was also inflicted in the circuit court today on Mrs. Violet Hess and Miss Gladys Clevenger, who were sentenced to serve thirty days in jail by Judge Sparks.

They changed their plea of "not guilty," which they entered Wednesday when arraigned, to one of guilty this morning. Henry McDaniel and Virgil Murphy pleaded guilty when first arraigned Wednesday and were sentenced to serve thirty days in jail.

John Wolters, age 44 years, pleaded guilty this morning to a charge of petit larceny and was fined \$10 and costs and sentenced to serve a term of one to eight years in the state prison. The sentence was suspended pending his good behavior. Wolters was accused in an affidavit filed by C. J. Neill, a Big Four detective, of having stolen a ton and a half of coal from the Big Four April 18, 1918. He had previously pleaded guilty and his trial was set for today.

## FREED YANKEES WILL SAIL FROM ROTTERDAM

Band Will be Aboard Liner Which Will Bring 2,000 Men and 96 Officers Back Home.

### WILL GO TO FRANCE FIRST

Tours, November 29.—An American liner will sail from a French port in a few days for Rotterdam, where it will take on board ninety-six American officers and 2,000 men who have been prisoners of war in Germany. They will be brought to France before being taken to America. Major-General James G. Harbord, head of the supply service of the American expeditionary forces, has directed that sufficient rations and clothing be taken to Rotterdam and that the commissary department provide tobacco, canned goods, playing cards, toilet articles, soaps and towels for issue to the prisoners. A sufficient number of quartermaster corps officers and men will go to Rotterdam to do everything possible for the men.

A notable detail in the personnel will be a brass band so that when the ship sails into Rotterdam, the Americans waiting there will hear "The Star Spangled Banner" being played on the vessel sent to take them away to freedom.

### BRITISH REACH FRONTIER

London, November 29.—Advance guards of the British troops have reached the Belgian-German frontier in the region between Beho and Stavelot.

## DR. A. J. FRANCIS AT ANNEX TONIGHT

Meeting One of the Most Interesting And Instructive of Its Kind Since War

### 3-REEL MOVING PICTURE

Some of Many Things American Red Cross Represents Will be Described and Shown

The meeting at the Graham Annex, at 7:30 o'clock this evening, will be one of the most interesting and instructive of its kind held in Rushville since the beginning of the war. It will include patriotic musical numbers, an address by Dr. Arthur J. Francis, recently returned from the fighting line, who tells a graphic story of American Red Cross activities "over there," and a three reel moving picture, showing the work of this great organization under war conditions.

The following program has been arranged: Orchestra, Rushville high school; song, "America," by the audience; song, "Keep the Home Fires Burning," by Mrs. Norma Hoggsett; address, Dr. A. J. Francis; orchestra, Rushville high school; motion pictures: "Star Spangled Banner." Tonight at 7 o'clock a ban concert will be given on the street.

This is a meeting at which some of the many things the American Red Cross represents, the things it has accomplished during the war, and what its plans are for service in the reconstruction period, will be presented. The Red Cross is American manhood and womanhood mobilized for service. Through the expression of the mobilized spirit of service the Red Cross has enrolled 22,000,000 men and women and 8,000,000 school children; organized 3863 chapters and 16,000 branches; mobilized 5,000,000 American mothers, wives and sisters as voluntary workers; produced and delivered to soldiers and sailors: 230,000,000 surgical dressings, 10,000,000 knitted articles, 10,600,000 hospital garments, 1,100,100 refugee garments; enrolled for war service 30,000 graduate nurses; 19,000 of whom have been assigned to active duty and given material help to more than a million wives and mothers of soldiers and sailors. It is the self sacrifice of the American nation, a sacrifice refined into opportunity—Opportunity for relief, opportunity for service, opportunity for giving, opportunity for love to build what hate destroys, opportunity for America to say to the world.

The Red Cross motto is: give and serve for humanity's sake, wherever sorrow and suffering prevail.

## GREATER REASON TO BE THANKFUL

Dawn of New Thanksgiving Made Possible by Sacrifices of Boys Overseas, Pastor Says

### REV. C. J. BUNNELL SPEAKS

Things For Which We Should be Thankful Enumerated at Annual Union Services

Just as we have for years rendered thanks on Thanksgiving day for the fruits we enjoyed because of the sacrifices and labors of those who have gone before us, so we have come to a new day when we can be thankful for greater things made possible by the sacrifices of the boys across the waters.

This was the thought of the sermon delivered by the Rev. C. J. Bunnell of the First Baptist church at the annual union Thanksgiving services at the Main Street Christian church last night.

As preliminary to the Thanksgiving address, the Rev. L. E. Brown read President Wilson's proclamation fixing Thursday, November 28 as Thanksgiving day. Mrs. Derby Green and Mrs. Earl Moore sang a duet and at the close of the service, the Rev. Mr. Brown called attention to the fact that America's obligation to the people across the water had not ended and that the responsibility still rests here for supplying two hundred million people of the war-stricken countries with food. He referred to Victory Week, which will be celebrated next week and to Herbert Hoover's appeal for the continued conservation of food.

The Rev. Mr. Bunnell pointed out that the thanksgiving spirit grows out of adversity; that forty-four of the one hundred and two pilgrims, who landed on American shores, died the first winter, but that when the fruitful season came and they found the crops were bountiful, they declared a Thanksgiving day which has continued in varied forms to this day. In the dark days of the civil war, he said, when the division of the nation was threatened, Abraham Lincoln preserved Thanksgiving day by issuing a Thanksgiving proclamation, which has been the custom of every president since that time.

"This is the greatest Thanksgiving in history," continued the speaker. A year ago at this time we were filled with sadness, misgiving and fear. All this has passed away. The dark clouds of perversity have rolled by and we have come to a new day because of the sacrifices of the boys over the seas."

The Rev. Mr. Bunnell enumerated some of the things for which we should be thankful, the first of which was for so many blessings which have come to us in a temporal way. He pointed out that conditions were so much better than they were a year ago in every respect, which is enough in itself for which to render thanks.

"We should also be thankful," he continued, "for the patriotic fervor and wonderful spirit of unity, which has characterized our people during the war. We did not know where there might be some dissection when we entered this war. When we think how our people responded as they did in support of the conscription act, we have much to be thankful for. Our boys were willing to lay down their lives when they learned that the people at home were willing to go any length to win the war."

"We should likewise be thankful for the spirit of sacrifice that came to us and the disappearance of that element of frivolity and the seriousness which took possession of us. As the blood of our young men has been poured out we have passed through a condition of war. Famine, pestilence and war have ever been God's way of punishing people who have sinned. We need to

## ANNUAL LODGE MEMORIAL

Elks Will Hold Services Sunday Afternoon at Two O'clock

The annual memorial services of the Rushville lodge of Elks will be held at the lodge building Sunday afternoon at two o'clock. On account of the health conditions here, no effort was made to hold a big public meeting. Short extemporaneous talks will be made by members of the lodge. Two Elks have died since the last memorial—Lieutenant Walter Gartin, whose death occurred at Camp Taylor, Ky., February 19 last, and James Wooster, who died a few weeks ago at Dayton, O., of influenza-pneumonia.

## MORE CASES OF "FLU" FOUND IN RUSHVILLE

Ten New Patients Are Reported in This City, Sixteen at Milroy and Five at Homer

### SMALLPOX CASES RECOVER

After a period of forty-eight hours during which no new cases of the Spanish influenza were reported in Rushville, there came a deluge yesterday afternoon and this morning. Ten more patients in the city have been found to be suffering with the malady. In addition, reports of twenty-one more cases outside of Rushville, sixteen at Milroy and five at Homer, have been received. This brings the total number of patients treated during the epidemic in the county to 1,145.

The new patients in Rushville include three school children. Some of them are in homes where the disease has already existed. Among the new cases reported were: William Lafara, 1026 North Maple street; Mildred Casady, 316 West Ninth; Clell Carr, 227 East Third; Louise Henry, 124 East Seventh; Anna Sider, 1026 North Harrison; Jules Kiplinger, 832 North Main, and Mrs. Frank Crow of West Third street.

It was announced today by the city health board that the homes of Mrs. Glen Gregor and Mrs. George Clark, in North Oliver street, were being fumigated and that the two patients who have been suffering with smallpox will be discharged. These two cases of this disease are the only ones which have broken out in Rushville, although the disease has been prevalent southwest of the city.

## 76TH FIRST COMBAT TROOPS TO START HOME

This Unit, Composed of New England National Army Men, Used For Replacement Purposes.

### 27th AND 30th MAY BE NEXT

(By United Press.)

Paris, Nov. 29.—The 76th division, composed of New England national army troops, will be the first combat troops to leave France for America. This unit has been used for replacement of the 27th and 30th divisions, which fought with the British and which are now marching to the rear. It is presumed they will be the next to embark.

Field Marshal Haig in special orders to the American second corps, complimented the work of the 27th and 30th.

General Pershing delivered a stirring Thanksgiving speech at the American headquarters yesterday. A special service was conducted by Bishop Brent.

### ARRIVES OVERSEAS

Mrs. Grace Spivey was notified Thursday morning of the safe arrival overseas of her son, Cortland J. Spivey, who was assigned to hospital train number 52.

## SAYS HE HAS HAD MANY CLOSE CALLS

Private John Kennedy Tells of Piece of Shrapnel Passing Through His Canteen

### NEVER NOTICES BIG GUNS

Former Rushville Boy Declares he Will Reserve His Experiences For Telling at Home

Some of the "close calls" he had in the front line trenches in France are described by Private John W. Kennedy, Company C, 354th Infantry, in a letter to his sister, Mrs. C. H. Tompkins, but he says he will reserve the most of his experiences to tell when he arrives home. The letter was written October 6 when there was much talk of peace. It follows in part:

"I had to quit writing yesterday so will try to write some more now. I slept in a bed with my shoes off for over four weeks, that I can remember. You know I am in the army now. So can't tell about it."

You have spoken about sending me things. I don't know of a thing that I really need, so I won't bother and will just wait until I get home, which I don't think will be so awful long if the war news keeps coming in as good as it has been the last few days. It sure does sound good. We get daily papers every day even while we are in the trenches. I am about as far from the front as Newkirk's corner, out by Hal Green's. They shell back here quite a little, but we hardly ever care about a little thing like that. Once I remember I was walking along a road which is pretty close to the front which the Germans delighted in shelling at the least provocation. It had been raining for about three days and was just as muddy as you ever see it, when the "Dutch" started to shell this said road. There was a ditch on both sides of the road, and I started for one side and my buddy the other. We did not stop to consider the mud, but lit on our stomachs in the ditch. My hands went into the mud clear above my wrists, and maybe you think we weren't pretty looking specimens of soldiers when we got out of there; we were mud from head to foot. But it was well we did hit the mud for a couple of shells hit within thirty yards of us, but that is only one of a hundred instances like that.

Another time a piece of shrapnel took its course through my canteen which I had on my belt. I could tell you any number of close calls like that but I will save it 'till I can see you and tell you all about it. After you have been on the front a while you do not notice it so much. You will be talking and the big guns will be firing away all unconscious to you. You might not even notice it unless some one would call your attention to the fact. That might sound a little bit "fishy" but nevertheless it is the truth.

I have learned not to worry about anything, for I have found out that it doesn't pay. I have been for days without ever seeing my outfit. Never knowing where the next feed was coming from or where I would sleep that night, but I am still hanging on. I can't see that I am much the worse for all my experiences. Maybe I have lost eight or ten pounds but physically I feel fine and have never been the least bit homesick. I guess we don't have time to think about that. All the stuff I have carried with me for the last four or five weeks has been my razor, raincoat and a heavy leather blanket, lined, sleeveless coat and my blanket. I think I will make an "A-No-1" tramp when it comes to humming. I have cooked many meals myself in the last month, and some of them under the queerest of circumstances. But you just leave it to "Jonnie" to get by, although I have gone for

Chaplin at the Mystic

Charlie Chaplin will be at the Mystic tomorrow, matinee and night, in "The Tramp," "Lost Lie," a Judge Brown comedy, and "Count and Wedding Guest," a drama, will be the other pictures on the program. Eugenia Pearson will be at this theater Tuesday in "Her Price."

Last Time For "The Great Love"

When David Wark Griffith, the famous producer of "The Birth of a Nation," "Intolerance" and "Hearts of the World," was in England "shooting" scenes of the latter picture, he was prevented by reason of his duties as producer, from obeying the "command" of King George to attend him at Buckingham Palace.

Later, however, Mr. Griffith appeared before the King and Queen Mary and was graciously received. The King complimented Mr. Griffith upon his production of "Intolerance," which the monarch had seen and assured him of his ready co-operation in any picture production dealing with the war and British war time activities which he might project.

It thus happens that in "The Great Love," Mr. Griffith's remarkable Arterraft photoplay which will be shown at the Princess again tonight, for the last time, many of the most illustrious women of the British aristocracy are pictured. In this respect, independent of every other consideration, this picture is one of the most remarkable ever presented to the public.

Camp Grant, Ill., was here today en-route to Indianapolis from Brookville where he spent Thanksgiving. Mr. Tague expects to be mustered out of the service next Wednesday.

**Supporting Victorious Peace**

The war is over; peace reigns on earth. But in Europe today there are more than 2,000,000 American soldiers, who took an important part in bringing the war to a victorious end, and these men must be fed and clothed for a long while to come. It is estimated by the War Department that the cost of equipping and maintaining an American soldier in Europe is \$423.27 a year.

ably will be two more—and possibly three. At any rate, the next lot must be prepared for and its success made certain. Get ready now to buy more bonds.

**Still an Issue**

The administration insisted all through the campaign that the tariff was not an issue, but the tariff commission was kept busy just the same compiling data and publishing it, for the information of Congress in framing future tariff legislation. And in its bulletins and reports, the Commission makes no recommendations. It has expressly taken the position that the enactment of a tariff law is entirely a task for Congress, and that its function is merely to present facts. Whether this shall be a protective tariff or a free trade country is a question of policy which the commission correctly holds is a matter for Congress to determine. The tariff is, therefore an issue before congress and the country.

The voices of Germany and Austria crying "Bread, Bread" must be heeded and answered. Would it not be a good plan, however, to answer them with war bread? We can spare it.

The daily papers look strange without the war maps. It was "the only war we had," and it is natural that we should miss it a little.

Food restrictions have made it necessary for many a stout woman to reduce, greatly to the benefit of her appearance and health. Now that sugar and wheat are easier to obtain, we hope that she will not begin to indulge in them as formerly. If she does she will be sure to lose what she has gained in gaining what she has lost.

When the war began the kaiser was the Man of the Hour. But now new republics in Germany seem to be the Tendency of the Hour.

It never occurred to the Germans that the "Watch on the Rhine" would some day be an American watch.

## 15 EGGS DAY FROM 23 HENS, IN WINTER

Mr. Duni's Hens Hadn't Laid All Winter, Until He Tried This Plan.

"We have 23 chickens and hadn't had an egg all winter. In five days after feeding Don Sung, we got four to five eggs a day; in three weeks, we were getting 10 to 12 eggs a day; in five weeks we got 15 to 19 eggs a day."—John Duni, Box 102, Cherry Valley, Pa.

Mr. Duni started giving his hens Don Sung last January in zero weather. He now keeps his hens busy in cold weather, when hens usually stop laying. A trial costs nothing. Here's our offer:

Give your hens Don Sung and watch results for one month. If you don't find that Don Sung pays for itself and pays you a good profit besides, simply tell us and your money will be refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be promptly refunded. Call at our store today for a 50c or \$1.00 package.

**VICTORY WEEK PLEDGE**

I, M. F. Lovett Federal food administrator for Rush county, in promulgating VICTORY WEEK, December 1-6, during which is to be disseminated the program of the United States Food Administration, for effecting the saving of millions of people from starvation, recommend the adoption into every household, as part of its daily creed, the following pledge:

We pledge to our country our best effort to prevent waste and the selfish use of our food reserves. We pledge our loyal cooperation in carrying out the conservation measures suggested by the government.

And if economy sometimes grows irksome or if this service works unwelcome change in our accustomed manner of living, we will think of those who have offered their lives for their country and those whose homes have been devastated. We will be glad that we, too, can serve in satisfying their hunger, in renewing their courage, and in re-establishing their homes.

Signed: M. F. LOVETT,  
Federal Food Administrator for Rush County.

**WANT ADS BRING RESULTS**

Women all over the world realize more and more that their work at home will help the men at the Front. It involves great sacrifices, hard work and unusual physical strength. Women at home should study nursing for war and for the home. A good way to learn is to ask your druggist for a copy or send 50c to publishers of the "Medical Adviser," 663 Main St., Buffalo, N. Y., and get a copy of their 1,000 page book bound in cloth, with chapters on First Aid, Taking Care of the Sick or Wounded, Physiology, Hygiene, Anatomy, Sex Problems, Mother and Babe. Nobody, man or woman, can do good work when health is impaired. If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Send Dr. Pierce, Buffalo, N. Y., 10 cents for trial package.

Kokomo, Ind.—"I can say something for Dr. Pierce's Favorite Prescription. For sometime I suffered from nervousness and general run-down condition. I lost my appetite and the doctors did not seem to help me. I had one of Dr. Pierce's Common Sense Medical Advisers in the house for about seven years and I started to read it. I found that 'Favorite Prescription' was what I needed and thought I would try it. It helped me in many ways and built up my system. I regained my appetite and felt better. It gave me the strength to do work that I had not been able to do for some time previous. I can recommend the 'Prescription' to others."

—Mrs. J. A. McGee, 821 E. Taylor St.

### NEW BLOOD NEEDED

After the gripe, influenza or other serious illness, the body needs help to regain the health and strength sacrificed by the disease. The blood first of all must be purified and revitalized. For this purpose physicians know of no more efficient body builders than Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphate in some form.

In many preparations, however, the Iron causes constipation, but in Chase's Blood and Nerve Tablets, which contain all of these tonics, this is overcome by the addition of Aloin.

The system, therefore, gets all the benefits of the Iron and other body builders without any unpleasant after effects. Health and strength quickly return and pure, healthy blood is soon circulating through the body.

Each dose means more vim, vitality, and strength. Weigh yourself before taking and watch the result.

Dr. Chase's Blood and Nerve Tablets are sold by nearly all druggists at sixty cents a box. Special strength ninety cents.—Adv.

### The Biggest Money-Maker on the Farm

Every good farmer MUST have a plow, a cultivator or a wagon and some other things. He cannot raise a crop without a plow, but he can raise a crop, such as it is, without a manure spreader.

All farmers buy plows, cultivators and wagons because they have to, just as the small boy goes to school because he is compelled to.

When a boy grows big so he knows the value of schooling, he goes because he wants to. When a farmer grows big to know the value of a manure spreader and how many more bushels it will make each of his acres produce, he buys it, not because he is compelled to, but because he knows it is the best money-maker he can put on his farm.

If our country demands more food, if we must feed besides the people of our own United States, many of the peoples of the belligerent countries, our duty is plain—we must make every acre produce to its limit. There is no machine that will increase the otherwise normal output of any acre of ground as much as the manure spreader. There is no machine made today that will INCREASE the food production of this country as will the spreader. There is no manure spreader made that will come nearer the ideal or perfect machine than the RUSHVILLE SPECIAL Spreader you will find on our sample floor. Come in and see it.

## MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithe-water drink.

## LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

### Days Pickings

Mrs. Helen Mitchell received a second letter from her husband, Ernest Mitchell, who enlisted here with the 139th regiment's sanitary detachment and then went to Hattiesburg, Mississippi, where he was before embarking for overseas on October 5. Private Mitchell has been ill with double pneumonia and is in an English hospital, but is recovering.

A marriage license has been issued here to Miss Maree Helen Melchoir, daughter of Mr. and Mrs. Henry S. Melchoir of Jasper, Ind., and Charles W. Rollinson, an Indianapolis attorney.

### PUNY, WEAK BOY

Made Strong and Well by Vinol Why it is Best for Children

Williamson, W. Va.—"My little boy was weak, puny and tired all the time, did not want to do anything. Vinol was recommended and it has built up his strength and made him healthy."—Harley Clay, Williamson, W. Va.

The reason Vinol was so successful in this case, is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, run-down system make rich, red blood and create strength. ### Don't Let Catarrh Drag

### You into Consumption

Avoid Its Dangerous Stage.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by

sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. RED BLOODED MEN FIGHTERS

THEY RULE THE WORLD

Red blooded men are born leaders in every walk of life and fight intelligently with both brain and muscles. They are always live wires, smiling and full of ginger; keen, alert on their toes and ready for anything that comes their way. Work is a pleasure and they land on top every time.

You will not find a strong successful man or woman trying to plug along with poor health or weak nerves. They know better, they are wise and see to it that their blood has plenty of good fresh iron and their nerves at all times loaded with Phosphates—the nerve food.

A leading doctor says, "Show me a strong, healthy successful man or woman and you can bank on it every time their bodies are just loaded with Iron and Phosphates". Another prominent physician says, "There is no need of anyone going through life sickly, miserable, played out, fagged and nervous when Phosphated Iron will always put energy and vigor in the body, mind and nerves". This same doctor also said, "With the system loaded with Phosphated Iron you can fight life's battle at any stage of the game and be a winner at every turn".

Mr. Run Down man or woman in any stage of life, if you feel all in your nerves are all shot, and life seems like one continual drag and drudgery from day to day, get next to yourself, wake up, take a brand new Lay in a supply of Phosphated Iron and take a new lease on life. You will once again feel like a live one and face the world with the smile that wins. Are you game?

To insure physicians and their patients receiving the genuine Phosphated Iron, it has been put up in capsules only, so do not allow dealers to give you tablets or pills. Insist on capsules.

SENTENCE COMMUTTED TO A TERM FOR LIFE

Governor of California, in Announcing Step, Reveals Pleas For Leniency From Wilson

COURT ACTION EXHAUSTED

Sacramento, Cal., Nov. 29.—The sentence of Thomas J. Mooney, sentenced to be hanged on Dec. 13 for the death of ten persons, killed by a bomb explosion in San Francisco during a preparedness parade in July, 1916, was commuted by Governor W. D. Stephens tonight to imprisonment for life.

Court action to save Mooney from the gallows was exhausted by the prisoner, the supreme court of the United States having recently decided it could not review the case.

Threats of a national strike in case the governor did not intervene had been made in various parts of the country and some time ago it was reported that President Wilson had written the governor to see that Mooney suffered no injustice. The trial judge had also requested a new trial for Mooney.

Governor Stephens's statement announcing the commutation said that in considering the case he had had before him "the urgent appeal of the President of the United States that I grant commutation."

## Intestinal and Stomach Worms

are the most common of hogs and pigs and they multiply very fast. It is easy to tell the pig that is loaded with worms. The hair is rough, has little or no appetite, coughs more or less and goes backward every day. Thousands of pigs and hogs die from worms every year. This can all be prevented by feeding ACME WORM BOUNCER from birth to maturity.

search out our hearts every personal and national sin and get closer to God."

"I thank God that we have been lead through this crisis by Christian men. I thank God for Governor Goodrich, who has taken a strong part in all these great questions and I thank God for Woodrow Wilson and for General Pershing.

"I am thankful that the battle lines have been broken, that the boys are not in the front line trenches and that they are not standing in water and ice to their knees. We can rejoice at the master stroke of strategy at Soissons, which broke the German lines in the rear and compelled the enemy to withdraw from the attacking front and weaken it so that our forces could go forward.

"I am thankful for the way the leading statesmen are thinking of the new relationship among the nations to make war impossible. If that is accomplished we may be profoundly thankful even after the sacrifices we have made."

He pointed out as one of the by-products of the war for which we should be thankful, that we had come to appreciate that a new relation has developed toward the mother country. He declared that we should appreciate the sacrifices of England, the country with the same blood and the same traditions as ours. He also asserted that another by-product of the war would likely be the eradication of the liquor traffic, which the United States has been struggling for years to get control of.

"This great nation has been led to peace," the speaker continued, "and we do not now need to be asking God for further blessings but we need to show our thankfulness by serving God."

## HERE RESTS A HUN

(By United Press.)

Paris, Nov. 3. (By Mail).—Among the vast quantity of material the Germans left in their wake when the Yanks smashed into them on the British front was a huge tombstone intended for the grave of a German colonel. On it was chisled an iron cross and the familiar "Gott Mit Uns."

In organizing the conquered ground, the Americans found the grave of the German colonel. So a detail of Yanks carried the tombstone to the grave and erected it. As the stone was set in place a bugler sounded taps over the grave.

## MAY NOT JOIN IN ALLIES REQUEST

United States Probably Will Not be Party to Plans to Ask Wilhelm's Surrender

### MUNS MUST PAY WAR COSTS

Premier Lloyd-George Declares Principles Have Always Been That The Loser Pays

Washington, Nov. 29.—The United States probably will not join with the entente in its reported plan to ask Holland to surrender the former kaiser, according to indications at the state department.

London, Nov. 29.—"Germany must pay the costs of the war to the limit of her capacity," Premier Lloyd-George declared, in a speech here today.

"The principles have always been that the loser pays. We must proceed on this principle in regard to Germany."

"Peace must be just. Germany will not be permitted to pay the indemnity by dumping cheap goods in this country."

Referring to his stand in the coming election, the premier said:

"I won't lead the government if I am to be subjected to the old party conspiracies and intrigues."

### To Discuss Procedure

London, Nov. 29.—Premier Clemenceau and Premier Lloyd-George will meet here Sunday to discuss the procedure for demanding that Holland turn the former kaiser over to the allies, the Express declared today.

It was stated Marshal Foch and Colonel House may attend the conference.

### To Induce Kaiser to Leave

Amsterdam, Nov. 29.—The former kaiser soon will leave Amerongen castle to undergo treatment for his shattered nerves, in a sanitarium near Arnhem, it was understood here today.

He is reported to be subject to frequent fits of violent weeping.

In well informed circles at The Hague, it is expected that the allies soon will join in inducing Holland to expel Wilhelm, offering him the choice of returning to the German frontier or surrendering to the entente.

### Two Issues Related

Paris, Nov. 29.—Realization that the question of freedom of the seas and a league of nations are inseparably related is becoming more evident, as the international representatives gather in Paris and the actual peace conference draws near.

### Hoist Prussian Flag

Washington, Nov. 29.—Returning German soldiers overthrew the council of workmen and soldiers after a hot fight at Lennep, according to diplomatic advices through Swiss channels today.

The troops proclaimed dissolution of the council. They brought down the red flag and burned it while the population applauded. The Prussian flag was hoisted.

### Kaiserine in Holland

London, Nov. 29.—A Rotterdam correspondent says the former kaiserine garbed in a dark overcoat, arrived at Maasbergen yesterday morning accompanied by the wife of the German minister to The Hague. They motored to Amerongen castle, said the correspondent, where they joined the former kaiser.

The kaiserine's luggage is said to have consisted of twenty large trunks.

### Conference is Called

The Hague, Nov. 29.—Soldiers councils on all fronts have been notified to send delegates to a special conference on peace.

## TO NAME SUCCESSOR SOON

President Expected to Pick Secretary of Treasury Next Week.

(By United Press.)  
Washington, Nov. 29.—Interest in the appointment of a new secretary of treasury took another turn today when it became known that Representative Carter Glass, Virginia, recently had been offered a place as a member of the federal reserve board. He was understood to have definitely declined the offer.

Indications today were that the president would nominate McAdoo's successor upon the convening of congress next week.

## SAME SENTENCE IS IMPOSED ON GIRLS

Mrs. Violet Hess and Miss Gladys Cleveland Must Serve Thirty Days in County Jail

### JOHN WOLTERS PLEADS GUILTY

The same punishment that was imposed on the two boys with whom they were accused of having improper relations, was also inflicted in the circuit court today on Mrs. Violet Hess and Miss Gladys Cleveland, who were sentenced to serve thirty days in jail by Judge Sparks.

They changed their plea of "not guilty," which they entered Wednesday when arraigned, to one of guilty this morning. Henry McDaniel and Virgil Murphy pleaded guilty when first arraigned Wednesday and were sentenced to serve thirty days in jail.

John Wolters, age 44 years, pleaded guilty this morning to a charge of petit larceny and was fined \$10 and costs and sentenced to serve a term of one to eight years in the state prison. The sentence was suspended pending his good behavior. Wolters was accused in an affidavit filed by C. J. Neill, a Big Four detective, of having stolen a ton and a half of coal from the Big Four April 18, 1918. He had previously pleaded guilty and his trial was set for today.

## FREED YANKEES WILL SAIL FROM ROTTERDAM

Band Will be Aboard Liner Which Will Bring 2,000 Men and 96 Officers Back Home.

### WILL GO TO FRANCE FIRST

Tours, November 29.—An American liner will sail from a French port in a few days for Rotterdam, where it will take on board ninety-six American officers and 2,000 men who have been prisoners of war in Germany. They will be brought to France before being taken to America. Major-General James G. Harbord, head of the supply service of the American expeditionary forces, has directed that sufficient rations and clothing be taken to Rotterdam and that the commissary department provide tobacco, canned goods, playing cards, toilet articles, soaps and towels for issue to the prisoners. A sufficient number of quartermaster corps officers and men will go to Rotterdam to do everything possible for the men.

A notable detail in the personnel will be a brass band so that when the ship sails into Rotterdam, the Americans waiting there will hear "The Star Spangled Banner" being played on the vessel sent to take them away to freedom.

### BRITISH REACH FRONTIER

London, November 29.—Advance guards of the British troops have reached the Belgian-German frontier in the region between Beho and Scaevlot.

## DR. A. J. FRANCIS AT ANNEX TONIGHT

Meeting One of the Most Interesting And Instructive of Its Kind Since War

### 3-REEL MOVING PICTURE

Some of Many Things American Red Cross Represents Will be Described and Shown

The meeting at the Graham Annex, at 7:30 o'clock this evening, will be one of the most interesting and instructive of its kind held in Nashville since the beginning of the war. It will include patriotic musical numbers, an address by Dr. Arthur J. Francis, recently returned from the fighting line, who tells a graphic story of American Red Cross activities "over there," and a three reel moving picture, showing the work of this great organization under war conditions.

The following program has been arranged: Orchestra, Nashville high school; song, "America," by the audience; song, "Keep the Home Fires Burning," by Mrs. Norma Hogsett; address, Dr. A. J. Francis; orchestra, Nashville high school; motion pictures: "Star Spangled Banner." Tonight at 7 o'clock a ban concert will be given on the street.

This is a meeting at which some of the many things the American Red Cross represents, the things it has accomplished during the war, and what its plans are for service in the reconstruction period, will be presented. The Red Cross is American manhood and womanhood mobilized for service. Through the expression of the mobilized spirit of service the Red Cross has enrolled 22,000,000 men and women and 8,000,000 school children; organized 3863 chapters and 16,000 branches; mobilized 5,000,000 American mothers, wives and sisters as voluntary workers; produced and delivered to soldiers and sailors: 230,000,000 surgical dressings, 10,000,000 knitted articles, 10,600,000 hospital garments, 1,100,100 refugee garments; enrolled for war service 30,000 graduate nurses; 19,000 of whom have been assigned to active duty and given material help to more than a million wives and mothers of soldiers and sailors. It is the self sacrifice of the American nation, a sacrifice refined into opportunity.—Opportunity for relief, opportunity for service, opportunity for giving, opportunity for love to build what hate destroys, opportunity for America to say to the world.

The Red Cross motto is: give and serve for humanity's sake, wherever sorrow and suffering prevail.

## GREATER REASON TO BE THANKFUL

Dawn of New Thanksgiving Made Possible by Sacrifices of Boys Overseas, Pastor Says

### REV. C. J. BUNNELL SPEAKS

Things For Which We Should be Thankful Enumerated at Annual Union Services

Just as we have for years rendered thanks on Thanksgiving day for the fruits we enjoyed because of the sacrifices and labors of those who have gone before us, so we have come to a new day when we can be thankful for greater things made possible by the sacrifices of the boys across the waters.

This was the thought of the sermon delivered by the Rev. C. J. Bunnell of the First Baptist church at the annual union Thanksgiving services at the Main Street Christian church last night.

As preliminary to the Thanksgiving address, the Rev. L. E. Brown read President Wilson's proclamation fixing Thursday, November 28 as Thanksgiving day. Mrs. Derby Green and Mrs. Earl Moore sang a duet and at the close of the service, the Rev. Mr. Brown called attention to the fact that America's obligation to the people across the water had not ended and that the responsibility still rests here for supplying two hundred million people of the war-stricken countries with food. He referred to Victory Week, which will be celebrated next week and to Herbert Hoover's appeal for the continued conservation of food.

The Rev. Mr. Bunnell pointed out that the thanksgiving spirit grows out of adversity; that forty-four of the one hundred and two pilgrims, who landed on American shores, died the first winter, but that when the fruitful season came and they found the crops were bountiful, they declared a Thanksgiving day which has continued in varied forms to this day. In the dark days of the civil war, he said, when the division of the nation was threatened, Abraham Lincoln preserved Thanksgiving day by issuing a Thanksgiving proclamation, which has been the custom of every president since that time.

"This is the greatest Thanksgiving in history," continued the speaker. A year ago at this time we were filled with sadness, misgiving and fear. All this has passed away. The dark clouds of adversity have rolled by and we have come to a new day because of the sacrifices of the boys over the seas."

The Rev. Mr. Bunnell enumerated some of the things for which we should be thankful, the first of which was for so many blessings which have come to us in a temporal way. He pointed out that conditions were so much better than they were a year ago in every respect, which is enough in itself for which to render thanks.

"We should also be thankful," he continued, "for the patriotic fervor and wonderful spirit of unity, which has characterized our people during the war. We did not know, where there might be some dissection when we entered this war. When we think how our people responded as they did in support of the conscription act, we have much to be thankful for. Our boys were willing to lay down their lives when they learned that the people at home were willing to go any length to win the war."

"We should likewise be thankful for the spirit of sacrifice that came to us and the disappearance of that element of frivolity and the seriousness which took possession of us. As the blood of our young men has been poured out we have passed through a condition of war. Famine, pestilence and war have ever been God's way of punishing people who have sinned. We need to be thankful."

## ANNUAL LODGE MEMORIAL

Elks Will Hold Services Sunday Afternoon at Two O'clock

The annual memorial services of the Nashville lodge of Elks will be held at the lodge building Sunday afternoon at two o'clock. On account of the health conditions here, no effort was made to hold a big public meeting. Short extemporaneous talks will be made by members of the lodge. Two Elks have died since the last memorial—Lieutenant Walter Gartin, whose death occurred at Camp Taylor, Ky., February 19 last, and James Wooster, who died a few weeks ago at Dayton, O., of influenza-pneumonia.

## MORE CASES OF "FLU" FOUND IN RUSHVILLE

Ten New Patients Are Reported in This City, Sixteen at Milroy and Five at Homer

### SMALLPOX CASES RECOVER

After a period of forty-eight hours during which no new cases of the Spanish influenza were reported in Rushville, there came a deluge yesterday afternoon and this morning. Ten more patients in the city have been found to be suffering with the malady. In addition, reports of twenty-one more cases outside of Rushville, sixteen at Milroy and five at Homer, have been received. This brings the total number of patients treated during the epidemic in the county to 1,145.

The new patients in Rushville include three school children. Some of them are in homes where the disease has already existed. Among the new cases reported were: William Lafara, 1026 North Maple street; Mildred Casady, 376 West Ninth; Clell Carr, 227 East Third; Louise Henry, 124 East Seventh; Anna Sider, 1026 North Harrison; Jules Kiplinger, 832 North Main, and Mrs. Frank Crow of West Third street.

It was announced today by the city health board that the homes of Mrs. Glen Gregor and Mrs. George Clark, in North Oliver street, were being fumigated and that the two patients who have been suffering with smallpox will be discharged. These two cases of this disease are the only ones which have broken out in Rushville, although the disease has been prevalent southwest of the city.

## SAYS HE HAS HAD MANY CLOSE CALLS

Private John Kennedy Tells of Piece of Shrapnel Passing Through His Canteen

### NEVER NOTICES BIG GUNS

Former Rushville Boy Declares he Will Reserve His Experiences For Telling at Home

Some of the "close calls" he had in the front line trenches in France are described by Private John W. Kennedy, Company C, 354th Infantry, in a letter to his sister, Mrs. C. H. Tompkins, but he says he will reserve the most of his experiences to tell when he arrives home. The letter was written October 6 when there was much talk of peace. It follows in part:

"I had to quit writing yesterday so will try to write some more now. I slept in a bed with my shoes off for over four weeks, that I can remember. You know I am in the army now. So can't tell about it."

You have spoken about sending me things. I don't know of a thing that I really need, so I won't bother and will just wait until I get home, which I don't think will be so awful long if the war news keeps coming in as good as it has been the last few days. It sure does sound good. We get daily papers every day even while we are in the trenches. I am about as far from the front as Newkirk's corner, out by that Green's. They shell back here quite a little, but we hardly ever care about a little thing like that. Once I remember I was walking along a road which is pretty close to the front which the Germans delighted in shelling at the least provocation. It had been raining for about three days and was just as muddy as you ever see it, when the "Dutch" started to shell this said road. There was a ditch on both sides of the road, and I started for one side and my baddie the other. We did not stop to consider the mud, but lit on our stomachs in the ditch. My hands went into the mud clear above my wrists, and maybe you think we weren't pretty looking specimens of soldiers when we got out of there; we were mud from head to foot. But it was well we did hit the mud for a couple of shells hit within thirty yards of us, but that is only one of a hundred instances like that.

Another time a piece of shrapnel took its course through my canteen which I had on my belt. I could tell you any number of close calls like that but I will save it till I can see you and tell you all about it. After you have been on the front a while you do not notice it so much. You will be talking and the big guns will be firing away all unconscious to you. You might not even notice it unless some one would call your attention to the fact. That, might sound a little bit "fishy" but nevertheless it is the truth.

I have learned not to worry about anything, for I have found out that it doesn't pay. I have been for days without ever seeing my outfit. Never knowing where the next feed was coming from or where I would sleep that night, but I am still hanging on. I can't see that I am much the worse for all my experiences. Maybe I have lost eight or ten pounds but physically I feel fine and have never been the least bit homesick. I guess we don't have time to think about that. All the stuff I have carried with me for the last four or five weeks has been my razor, razor-coat and a heavy leather blanket lined, sleeveless coat and my blanket. I think I will make an "A-No-1" tramp when it comes to hamming. I have cooked many meals myself in the last month, and some of them under the queerest of circumstances. But you just leave it to "Jannie" to get by, although I have gone for a long time without a haircut.

**Last Time For "The Great Love"**

When David Wark Griffith, the famous producer of "The Birth of a Nation," "Intolerance" and "Hearts of the World," was in England "shooting" scenes of the latter picture, he was prevented by reason of his duties as producer, from obeying the "command" of King George to attend him at Buckingham Palace.

Later, however, Mr. Griffith appeared before the King and Queen Mary and was graciously received. The King complimented Mr. Griffith upon his production of "Intolerance," which the monarch had seen and assured him of his ready co-operation in any picture production dealing with the war and British war time activities which he might project.

If this happens that in "The Great Love," Mr. Griffith's remarkable Arctcraft photoplay which will be shown at the Princess again tonight, for the last time, many of the most illustrious women of the British aristocracy are pictured. In this respect, independent of every other consideration, this picture is one of the most remarkable ever presented to the public.

### Supporting Victorious Peace

The war is over; peace reigns on earth. But in Europe today there are more than 2,000,000 American soldiers, who took an important part in bringing the war to a victorious end, and these men must be fed and clothed for a long while to come. It is estimated by the War Department that the cost of equipping and maintaining an American soldier in Europe is \$423.27 a year.

## Sap and Salt

By BERT MOSES

Even the wisest men are "suckers" for somebody.

A man does fairly well if he succeeds in being 51 percent good.

Big men are seldom alike, but little folks are very much the same.

To take "bargains" away from a woman is as cruel as taking water away from a duck.

Playing pool does not aid muscular development so much as beating a rug or carrying out the ashes.

The final test of honesty comes when you have a chance to get rid of a plugged quarter, but don't.

Hez Heck says: "Some men prefer to scratch, because scratching is easier than going after them with a fine comb."

The American army was transported to France at the rate of 250,000 men a month by giving them first call on shipping facilities of the United States. If they could be brought back to their homes thus speedily—and it is doubtful that they could—it would require at least eight months. It is obvious, therefore, that we must continue to raise money with which to maintain our army abroad.

"We are going to have to finance peace for a while," said Secretary of the Treasury McAdoo, "just as we have had to finance war."

And that means that the American people, having supported four Liberty Loans with a patriotism which future historians will surely extol, are to be vouchsafed an opportunity to support our victorious peace. There will certainly be at least one more government loan. There prob-

### Still an Issue

The administration insisted all through the campaign that the tariff was not an issue, but the tariff commission was kept busy just the same compiling data and publishing it, for the information of Congress in framing future tariff legislation. And in its bulletins and reports, the Commission makes no recommendations. It has expressly taken the position that the enactment of a tariff law is entirely a task for Congress, and that its function is merely to present facts. Whether this shall be a protective tariff or a free trade country is a question of policy which the commission correctly holds is a matter for Congress to determine. The tariff is, therefore, an issue before congress and the country.

The voices of Germany and Austria crying "Bread, Bread" must be heeded and answered. Would it not be a good plan, however, to answer them with war bread? We can spare it.

The daily papers look strange without the war maps. It was "the only war we had," and it is natural that we should miss it a little.

Food restrictions have made it necessary for many a stout woman to reduce, greatly to the benefit of her appearance and health. Now that sugar and wheat are easier to obtain, we hope that she will not begin to indulge in them as formerly. If she does she will be sure to lose what she has gained in gaining what she has lost.

When the war began the kaiser was the Man of the Hour. But now new republics in Germany seem to be the Tendency of the Hour.

It never occurred to the Germans that the "Watch on the Rhine" would some day be an American watch.

## 15 EGGS DAY FROM 23 HENS, IN WINTER

Mr. Duni's Hens Hadn't Laid All Winter, Until He Tried This Plan.

"We have 23 chickens and hadn't had an egg all winter. In five days after feeding Don Sung, we got four to five eggs a day; in three weeks, we were getting 10 to 12 eggs a day; in five weeks we got 15 to 19 eggs a day."—John Duni, Box 102, Cherry Valley, Pa.

Mr. Duni started giving his hens Don Sung last January in zero weather. He now keeps his hens busy in cold weather, when hens usually stop laying. A trial costs nothing. Here's our offer:

Give your hens Don Sung and watch results for one month. If you don't find that Don Sung pays for itself and pays you a good profit besides, simply tell us and your money will be refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be promptly refunded. Call at our store today for a 50c. or \$1.00 package.

## VICTORY WEEK PLEDGE

I, M. F. Lovett Federal food administrator for Rush county, in promulgating VICTORY WEEK, December 1-6, during which is to be disseminated the program of the United States Food Administration, for effecting the saving of millions of people from starvation, recommend the adoption into every household, as part of its daily creed, the following pledge:

We pledge to our country our best effort to prevent waste and the selfish use of our food reserves. We pledge our loyal cooperation in carrying out the conservation measures suggested by the government.

And if economy sometimes grows irksome or if this service works unwelcome change in our accustomed manner of living, we will think of those who have offered their lives for their country and those whose homes have been devastated. We will be glad that we, too, can serve in satisfying their hunger, in renewing their courage, and in re-establishing their homes.

Signed: M. F. LOVETT,  
Federal Food Administrator for Rush County.

WANT ADS BRING RESULTS

Women all over the world realize more and more that their work at home will help the men at the front. It involves great sacrifices, hard work and unusual physical strength. Women at home should study nursing for war and for the home. A good way to learn is to ask your druggist for a copy or send 50c to publishers of the "Medical Adviser," 663 Main St., Buffalo, N. Y., and get a copy of their 1,000 page book bound in cloth, with chapters on First Aid, Taking Care of the Sick or Wounded, Physiology, Hygiene, Anatomy, Sex Problems, Mother and Babe. Nobody, man or woman, can do good work when health is impaired. If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Send Dr. Pierce, Buffalo, N. Y., 10 cents for trial package.

Kokomo, Ind.—"I can say something for Dr. Pierce's Favorite Prescription. For sometime I suffered from nervousness and general run-down condition. I lost my appetite and the doctors did not seem to help me. I had one of Dr. Pierce's Common Sense Medical Advisers in the house for about seven years and I started to read it. I found that 'Favorite Prescription' was what I needed and thought I would try it. It helped me in many ways and built up my system. I regained my appetite and felt better. It gave me the strength to do work that I had not been able to do for some time previous. I can recommend the 'Prescription' to others."

or cold as it is likely to become deep seated through neglect and hang on the whole winter, if it does not become chronic or develop into something more serious. Relieve and cure it promptly with SCHIFFMANN'S EXpectorant. This remedy is so strongly concentrated that 50 cents worth makes a half pint (64 teaspoonsful) of excellent cough medicine, by simply mixing it at home with honey or sugar syrup. It is prepared from strictly harmless plants, and is so pleasant that children like to take it, and it can be given them with perfect safety as it positively contains no narcotic, as do most cough mixtures. No risk is run in buying this remedy, as druggists are authorized to refund money if it does not give perfect satisfaction, or is not found the very best remedy you have ever used for stubborn Coughs, Colds, Bronchitis, Croup, Whooping Cough and Hoarseness.

## NEW BLOOD NEEDED

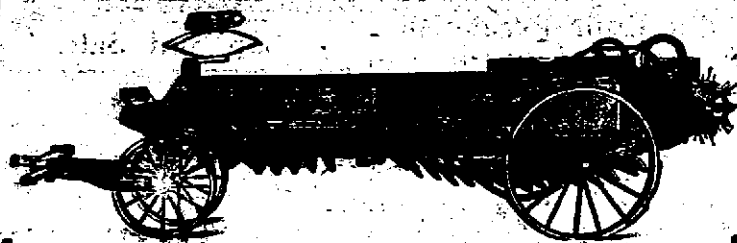

After the gripe, influenza or other serious illness, the body needs help to regain the health and strength sacrificed by the disease. The blood first of all must be purified and revitalized. For this purpose physicians know of no more efficient body builders than Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphide in some form.

In many preparations, however, the Iron causes constipation, but in Chase's Blood and Nerve Tablets, which contain all of these tonics, this is overcome by the addition of Aloin.

The system, therefore, gets all the benefits of the Iron and other body builders without any unpleasant after effects. Health and strength quickly return and pure, healthy blood is soon circulating through the body.

Each dose means more vim, vitality, and strength. Weigh yourself before taking and watch the result.

Dr. Chase's Blood and Nerve Tablets are sold by nearly all druggists at sixty cents a box. Special strength ninety cents.—Adv.

## The Biggest Money-Maker on the Farm

Every good farmer MUST have a plow, a cultivator or a wagon and some other things. He cannot raise a crop without a plow, but he can raise a crop, such as it is, without a manure spreader.

All farmers buy plows, cultivators and wagons because they have to, just as the small boy goes to school because he is compelled to.

When a boy grows big so he knows the value of schooling, he goes because he wants to. When a farmer grows big to know the value of a manure spreader and how many more bushels it will make each of his acres produce, he buys it, not because he is compelled to, but because he knows it is the best money-maker he can put on his farm.

If our country demands more food, if we must feed besides the people of our own United States, many of the peoples of the belligerent countries, our duty is plain—we must make every acre produce to its limit. There is no machine that will increase the otherwise normal output of any acre of ground as much as the manure spreader. There is no machine made today that will INCREASE the food production of this country as will the spreader. There is no manure spreader made that will come nearer the ideal or perfect machine than the RUSHVILLE SPECIAL. Spreaders you will find on our sample floor. Come in and see it.

Private Mitchell has been ill with double pneumonia and is in an English hospital, but is recovering.

A marriage license has been issued here to Miss Maree Helen Melchoir, daughter of Mr. and Mrs. Henry S. Melchoir of Jasper, Ind., and Charles W. Rollinson, an Indianapolis attorney.

A baby boy weighing nine and a half pounds has been born to the wife of Harley Austin, living one and a half miles southwest of the New Salem. The baby has been named Robert Lowell.

### DIES IN ENGLAND

Shoals, Ind., Nov. 29.—Just after she had mailed a Christmas package to her son Plummer, Mrs. Sarah E. Haga was notified by the war department that the boy had died in England October 23, three days after landing from a transport. Influenza-pneumonia caused his death.

### TRY A WANT AD

### SUFFRAGE BY XMAS GOAL

Suffrage as a Christmas present is now the demand of American women. "Out of the Senate by Christmas" is the cry with which they are entering the final stage of their struggle to effect the passage of the Federal amendment. One vote still is lacking.

Americans in the Red Cross ambulance service received 65 decorations for work performed in one month. This includes 7 silver medals, 4 bronze and 54 war crosses.

### PUNY, WEAK BOY

Made Strong and Well by Vinol Why it is Best for Children

Williamson, W. Va.—"My little boy was weak, puny and tired all the time, did not want to do anything. Vinol was recommended and it has built up his strength and made him healthy."—Harley Clay, Williamson, W. Va.

The reason Vinol was so successful in this case, is because it contains beef and cod liver peptones, iron and manganese peptonates and glycerophosphates, the very elements needed to build up a weakened, run-down system make rich, red blood and create strength. ### Don't Let Catarrh Drag

### You into Consumption

Avoid Its Dangerous Stage.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and the hawking and spitting and other distasteful features.

The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by

sprays, inhalers, atomizers, jellies and other local applications.

S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and removes the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. You can obtain special medical advice without charge by writing to Medical Director, 27 Swift Laboratory, Atlanta, Ga.

## MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

## LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

### RED BLOODED MEN FIGHTERS

#### THEY RULE THE WORLD

Red blooded men are born leaders in every walk of life and fight intelligently with both brain and muscles. They are always live wires, smiling and full of ginger; keen, alert on their toes and ready for anything that comes their way. Work is a pleasure and they land on top every time.

You will not find a strong successful man or woman trying to plug along with poor health or weak nerves. They know better, they are wise and see to it that their blood has plenty of good fresh iron and their nerves at all times loaded with Phosphates—the nerve food.

A leading doctor says, "Show me a strong, healthy successful man or woman and you can bank on it every time, their bodies are just loaded with Iron and Phosphates". Another prominent physician says, "There is no need of anyone going through life sickly, miserable, played out, fagged and nervous when Phosphated Iron will always put energy and vigor in the body, mind and nerves. This same doctor also said, 'With the system loaded with Phosphated Iron you can fight life's battle at any stage of the game and be a winner at every turn'."

Mr. Runyon, a man or woman in any stage of life, if you feel all your nerves are all shot, and life seems like one continual drag and drudgery from day to day, get next to yourself, wake up, take a brace, lay in supply of Phosphated Iron and take a new lease on life. You will once again feel like a live one and face the world with the smile that wins. Are you game?

To insure physicians and their patients receiving the genuine Phosphated Iron, it has been put up in capsules only, so do not allow dealers to give you tablets or pills. Insist on capsules.

### SENTENCE COMMUTED TO A TERM FOR LIFE

#### Governor of California, in Announcing Step, Reveals Pleas For Leniency From Wilson

COURT ACTION EXHAUSTED

Sacramento, Cal., Nov. 29.—The sentence of Thomas J. Mooney, sentenced to be hanged on Dec. 13 for the death of ten persons, killed by a bomb explosion in San Francisco during a preparedness parade in July, 1916, was commuted by Governor W. D. Stephens tonight to imprisonment for life.

Court action to save Mooney from the gallows was exhausted by the prisoner, the supreme court of the United States having recently decided it could not review the case. Threats of a national strike in case the governor did not intervene had been made in various parts of the country and some time ago it was reported that President Wilson had written the governor to see that Mooney suffered no injustice. The trial judge had also requested a new trial for Mooney.

Governor Stephens' statement announcing the commutation said that in considering the case he had had before him "the urgent appeal of the President of the United States that I grant commutation."

### WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese; Pot. Ext. Nut. Vomica; Powdered Gentian; Phenolphthalein; Olearin Capsicum. Kolo.

are the most common of hogs and pigs and they multiply very fast. It is easy to tell the pig that is loaded with worms. The hair is rough, has little or no appetite, coughs more or less and goes backward every day. Thousands of pigs and hogs die from worms every year. search out our hearts every personal and national sin and get closer to God."

"I thank God that we have been led through this crisis by Christian men. I thank God for Governor Goodrich, who has taken a strong part in all these great questions and I thank God for Woodrow Wilson and for General Pershing.

"I am thankful that the battle lines have been broken, that the boys are not in the front line trenches and that they are not standing in water and ice to their knees. We can rejoice at the master stroke of strategy at Soissons, which broke the German lines in the rear and compelled the enemy to withdraw from the attacking front and weaken it so that our forces could go forward.

"I am thankful for the way the leading statesmen are thinking of the new relationship among the nations to make war impossible. If that is accomplished we may be profoundly thankful even after the sacrifices we have made."

He pointed out as one of the bi-products of the war for which we should be thankful, that we had come to appreciate that a new relation has developed toward the mother country. He declared that we should appreciate the sacrifices of England, the country with the same blood and the same traditions as ours. He also asserted that another bi-product of the war would likely be the eradication of the liquor traffic, which the United States has been struggling for years to get control of.

"This great nation has been led to peace," the speaker continued, "and we do not now need to be asking God for further blessings but we need to show our thankfulness by serving God."

## HERE RESTS A HUN

(By United Press.)

Paris, Nov. 3. (By Mail).—Among the vast quantity of material the Germans left in their wake when the Yanks smashed into them on the British front was a huge tombstone intended for the grave of a German colonel. On it was inscribed an iron cross and the familiar "Gott Mit Uns."

In organizing the conquered ground, the Americans found the grave of the German colonel. So a detail of Yanks carried the tombstone to the grave and erected it. As the stone was set in place a huge, sounded taps over the grave.
